Assembly Time:
Less than 15 minutes.

This product's intended use is for shoe storage.

Tools Needed:
Phillips screwdriver.

STEP 1. Screw the base cover (B) and base (C) onto one end pole (F) using the two washers (J) and long screw (H). Tighten long screw with Phillips screwdriver (not provided). Place one locking band (D) then collar (E) onto end pole. Place one shoe spinner shelf (A) onto end pole. Place center pole (G) onto assembled end pole and attach with one short screw (I). Place another locking band (D) and collar (E) and shoe spinner shelf (A) onto center pole. Place final end pole (F) onto center pole and attach with one short screw (I). Place final locking band (D) and collar (E) and shoe spinner shelf (A) onto end pole. Finally, place top cap (K) over assembled end pole and secure T-handle (L) by screwing into end pole.

STEP 2. Assembly is now complete. You can spin the shelves and move them up and down by moving the locking band and collar.
